ACTUNOMICS

Actuarial expertise. Practical analytics.

Reporting and automation that insurance teams can use.

Specialist fractional capacity and fixed-scope analytical support for P&C insurers, MGAs/MGUs, brokers, reinsurance and selected financial services organizations.

HOW ACTUNOMICS HELPS

01 Fractional actuarial and portfolio support

P&C pricing and reserving analysis; loss-ratio, exposure and profitability monitoring; underwriting and management decision support. Engagements are scoped to the required expertise and deliverables.

Example outputs: experience analysis, validation log, portfolio commentary.

02 Insurance analytics and BI

Portfolio and program reporting; premium, claims and exposure data validation; dashboards and clear management information.

03 Reporting and process automation

Bordereaux and reconciliation workflows; repeatable data preparation; Excel, SQL, Python and Power BI solutions with documentation and handover.

FLEXIBLE ENGAGEMENTS

Scoped diagnostics • Project implementation • Fractional analytics support
